

Have your say

The 10-Year Strategy on Homelessness

We want you to have your say on the development of the 10-Year Strategy on Homelessness.

The Department of Communities is leading the development of a whole-of-community plan to tackle homelessness in Western Australia.

The 10-Year Strategy on Homelessness (the Strategy) will find better ways to prevent homelessness and support those who are experiencing it.

You are invited to have a conversation about homelessness and the specific needs of your local community. This will inform the development of the Strategy.

If you have previously, or are currently, experiencing homelessness, we invite you to join us to chat privately with the Project Team following the consultation session in your area. This time is allocated to hearing personal stories and will not be open to the public or service providers.
