

Town of Port Hedland & Care for Hedland Sustainability News

ISSUE 23 | April 2026

Hedland Sustainable Living Show Day returns this June!

Care For Hedland, BHP and the Town of Port Hedland, together with the support of the principal Show Day partner, Northern Star Resources are proud to be hosting the free Hedland Sustainable Living Show Day 2026.

Held on Saturday 6th June 2026 from 9:00am-3:00pm at Gratwick Hall and Civic Centre Gardens, Port Hedland, this is your opportunity to hear from great guest speakers, see displays and participate in educational workshops.

Our key presenter for the 2026 Show Day is award winning ABC TV gardening presenter, Costa Georgiadis! Additionally, the MC will be the Sunday Times garden columnist and garden whisperer Andrea Whitely.

Joining Andrea and Costa is Western Australia's own Frog Doctor Johnny Prefumo who will be returning again to demonstrate frog friendly habitat gardening Pilbara style - showcasing ways to attract beneficial critters to your Hedland garden.

Topics on the day cover all aspects of household sustainability from water efficiency, energy use, electric vehicles, beginner's bee keeping, solar power, recycling, composting, fabric recycling and art, eco-friendly gardening, food preservation and DIY probiotics.

There will be a number of stalls and interactive displays and loads of free show bags and giveaways, including 100 free mango trees being given away, second-hand clothes, toys and book swap, compost bins, worm farms and water wise shower heads.

This event will help you learn practical ways to reduce your household carbon footprint and lower net greenhouse gas emissions

For up-to-date information and speaker's times please check out Care for Hedland's Facebook page over the coming weeks: www.facebook.com/careforhedland
