Investment Portfolio Commentary

During the month of March, the Bank Bill Swap Rate moved slightly due to the decision made by the Reserve Bank to hold the official cash rate at 2.25%, while the Australian dollar noticeably declined against a rising US dollar. The significant reductions in key commodity prices particularly iron ore, reflect a trend of lower growth in demand and substantial increases in supply. All these factors have continued to directly affect the interest rates for the Term Deposits currently being held by the Town of Port Hedland. However, in comparison, the ToPH weighted average rate of return (3.52%), is still significantly higher than the BBSW rate (2.50%), therefore the investment portfolio continues to have a competitive advantage despite the economic hardships. From the graphs below, the budgeted annual revenue from interest income has already been exceeded by 31% as at 31 March 2015. The Town of Port Hedland investment portfolio continues to be in line with the objective of providing a framework that seeks to maximize returns whilst having due consideration for the risk and security of each investment and ensuring that the Council's liquidity requirements are being met. The portfolio is in compliance with the *Local Government Act 1995- Section 6.14*, the *Local Government (Financial Management) Regulations 1996* and the Australian Accounting Standards.
